WHAT TO SAY...

- Politicians are people too, you can just call them up and have a conversation with them, or their staff, or leave a voice mail.
- You are their constituents, even if you are not in their district, you have a right to tell them what you think and to demand action.
- You don't have to be an expert, just let them know what you think, and that you are paying attention.
- Put their numbers in your cell phone so you can call anytime when something bothers you.
